### **DETAILED ACTION**

In the Response to the Restriction Requirement dated June 21, 2004, Applicant has elected Group I (claims **1-11 and 19-20**), drawn to a device, for examination and canceled claims **12-18** without prejudice is acknowledged. Accordingly, claims **1-11 and 19-20** remain pending in this application, which claims benefit of Application No. 60/391,565 filed 06/24/2002.

This application is in condition for allowance except for the following formal matters:

The disclosure is objected to because of the following informalities: The cross-related application information on page 2, paragraph [0018] should be updated.

In claims **2-11**, "A device" should read --A multibit non-volatile memory cell structure--, and in claim **20**, "A memory cell array" should read --A multibit non-volatile memory cell array--.

### ***Allowable Subject Matter***

The following is a statement of reason for the indication of allowable subject matter:

Claims **1-11 and 19-20** are considered allowable since the prior art of record fails to teach or suggest the limitation recited a multibit non-volatile memory cell structure wherein read, write and erase functions for each cell involve only two polysilicon layers, and wherein each cell comprises at least two locations for storing a charge representing at least one bit as claimed in independent claims **1 and 19**.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

When responding to the office action, Applicants' are advice to provide the examiner with the line numbers and page numbers in the application and/or references cited to assist the examiner to locate the appropriate paragraphs.
